

Professional support & delivery

WINDOW TECHNOLOGY

MARINE SOLUTIONS

Maintenance is for those with premium skills

C.C. Jensen Windows is a well known and innovative supplier of glass & frame constructions according to classification requirements.

Therefore we can offer you a highly educated team of engineers, supervisors, fitters and production team for obtaining the optimum maintenance solution for your vessel.

Being a highly flexible supplier we can provide a variety of spareparts and/or replacements - with short notice.

We have our own test facilities, and we are performing tests according to all classification requirements.

Classification surveyors are inspecting our test results used as documentation for the new upgraded applications.

Modern technology and tested solutions

C.C. Jensen's supervisors and fully trained service team meets your service needs

- Customised maintenance programs according to requirements
- We perform service inspections
- We can often provide delivery within 24 hours
- We upgrade your existing solutions to meet every expectation

All solutions are defined to fulfill customer and classification requirements.

Fully documented - of course!

"Safety - energy saving and good looking design"

Proper maintenance solves your problems with:

UNSAFE WINDOWS

- Unsafe due to insufficient overlay on glass
- Unsafe due to incorrect welding
- Incorrect mounting may cause a risk for glass breakage

UNSAFE FIRE RETARDANT WINDOWS DUE TO

- Incorrect glass
- Incorrectly mounted glass
- Incorrectly mounted gasket
- Technical specifications not fulfilling the requirements

LEAKING DUE TO

- Insufficient overlay on glass
- Incorrect gasket systems
- Corrosion problems due to incorrect gasket systems
- Moist / delaminated glass due to incorrect gasket systems
- Leaking causes failure on heated glass

UPGRADING OF GLASS & FRAME CONSTRUCTIONS OR SLIDING DOOR SYSTEMS

- Changing of monolithic glass to double glass
- Upgrade to new fire class
- Upgrade to double glass applications for cost saving on aircondition systems
- Upgrade to Comfort Class I - II - III
- Upgrade to noise reduction requirements

C.C.Jensen offers you inspection onboard the vessel

- Developing a maintenance program
- Making a forecast for your repair budget
- Making proposals to upgrading
- Discussing documentation in connection with changing of classification or reflagging

**A window can be the only thing
between you and a lot of water.
Be sure it is up to date!**

Why choose us?

Consistency and solidity form the conceptual base of the family owned Danish company C.C. Jensen, established in 1953.

Originally the company was manufacturing lubricating oil filters for marine engines and in 1968 production of ship windows and sand casted heavy elements were added.

Any project or sale at C.C. Jensen are based upon an **assessment** of the customers

needs in order to develop the **optimum** solution and deliver the relevant products or components. **Ethical** business practice is essential in our customer relations. All customers are approached in a bona fide and **professional way**.

The CJC™ trademark stands for **reliable supply** all over the world - we aim to achieve that goal through an **efficient supply chain**, sales organisation and network.

You are welcome to **contact us**, if you **have questions about**
